Députée de Portage—Lisgar

Dear Constituent,

Thank you for expressing your concern regarding the cancellation of the TransCanada Energy East Pipeline. I always enjoy hearing from my constituents. Your thoughts are appreciated and taken into consideration.

I, along with many Canadians are extremely disappointed with Trudeau and the Liberals for the role they played in killing the Energy East Pipeline Project. This announcement is not a result of any decision taken by TransCanada, but instead a result of Liberal's uncertain management process and failure to champion the Canadian energy sector. Justin Trudeau first proposed to increase tax on middle class Canadians and now he kills 15,000 jobs Energy East would have created for Canadians. The pipeline would have also contributed 55 million dollars into our economy. Justin Trudeau claims to support the middle class, but he truth is that the very people he claims to help are the people he hurts most.

Over the past two years, Justin Trudeau has put the interests of foreign oil companies and foreign despots ahead of Canadian interests. He has introduced new crippling regulations on Canadian energy projects and forced Canadian oil companies to comply with standards not required for foreign countries. Instead, Atlantic Canada has to import unethical oil from foreign countries like Venezuela, Saudi Arabia and Algeria that export oil to Canadian markets.

We hope TransCanada will try once more to advance this nation building project that creates thousands of Canadian jobs and helps export Canadian oil to Canadian provinces, and to countries around the world.

Thank you again for your email. If my office can be of any further assistance on this or any other matter, please feel free to contact me.

Sincerely,

Hon. Candice Bergen, P.C., M.P.
